PUTTMAN
A putting app for three-putt protection

Lots of three-putt holes!
Long putts don't get close!
Don't know how to putt on a slope!
Going back and forth near the hole!

Never worry about putts again!

PUTTMAN is a putting method for controlling ball speed.
If you match the three types of distance among short putts, mid-range putts, and long putts, you will be able to adapt to any golf course.
Your three-putt holes will be reduced, even on steeply inclined greens.

Top Page

The Robot Swing Laboratory has developed a groundbreaking app that improves the accuracy of the distance of the putt. That's PUTTMAN.

By replacing a putt that is based on how you feel to one that is based on numerical values generated, the accuracy of your putting will improve dramatically.
